QUALITY POLICY

S&C is dedicated to being the leading specialist in electric power switching, protection and control by creating innovative solutions that are easily applied and provide the best long-term value. In support of this objective, S&C's quality management system is designed and operated, through established objectives and defined responsibilities, to ensure the quality of the products and services provided to our customers consistently meets their expectations.

Specifically, S&C accomplishes this objective by meeting customer statutory and regulatory requirements, through the identification and mitigation of risks, by continually identifying and executing on opportunities for improvement and through team member dedication to achieving total operational excellence.
